Confectioners' Glaze High Gloss

Sugarin Confectioners' Glaze – High Gloss is shellac based glaze that can be used to coat Fondant, Chocolate, Compound, Royal Icing and almost all kind of food products. Because it contains high amount of shellac, it gives good quality high gloss. No need to keep coating multiple times to achieve high gloss anymore. It dries very fast once applied and leave smudge free, shiny, glossy film. It's best to protect foods from environmental humidity and debris. Only for external application and never use for adding into the food products.
