Whipping Colors

Concentrated Powder Colors

Just 4 easy steps to intense colors

1. Just add Whipping Colors to melting whipping cream & mix very well. **Do not beat!**
2. Once color is well mixed, keep in refrigerator for 20min.
3. After 20min, mix again & check if the color is what you want. If more dark shade is needed, repeat Step 1 & 2.
4. Once right color is achieved, start beating.

IMPORTANT

To avoid staining of palate & tongue, don't add large quantity of Whipping Color. Start with small amount & add more after testing.
